EXAMINER'S COMMENT

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Claims

2. Claims 1-10 and 12-14 are allowed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: A thorough search of the prior art of record did not disclose any reference, alone or in combination with other reference(s) that teaches or fairly suggests the following: with respect to claims 1, 7, 12, a closed end of a compacted inner bag liner of an ostomy appliance that is provided with a cover to retain the inner bag liner in a compacted condition prior to use; with respect to claim 14, a method comprising the step of securing an inner bag liner of an ostomy appliance in a compacted condition by placing a cover on a closed end of said inner bag liner. The closest prior art of record was discussed in association with the allowed claims in the final action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. This application is in condition for allowance except for the following formal matters:

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: Applicant must amend the specification to provide antecedent basis for the following: (1) receiving bag bottom portion, (2) first coupling component (claim terminology should be consistent with specification terminology), (3) second coupling component (claim terminology should be consistent with specification terminology), (4) compacted condition. These limitations are sufficiently supported in the disclosure as originally filed because they were either set forth in the specification or the original claims and thus an amendment to the specification complying with this objection to add these terms will not introduce new matter.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
